

Village of Mansfield
Water Committee Meeting
November 30, 2017

Meeting called to order at 13:03 by chairman Ron Konen.

Members present: Ron Konen, Todd Jones & Zach Reynolds

Audience Members: Denna Carico & Tom Overmeyer

The major concern from Todd Jones on the water project is the financials. Concern that the revenues will not allow for the payment of a loan and operations of the water system under current revenue structure. With current Audit information showing a negative balance in water income for the fiscal year.

Tom Overmeyer said they would like to review the last 3 years audits and check the figures for the loan and operations of the water system. Tom suggested that we could have a water rate study completed to help determine our situation. He will present that option to the Village Board on Monday December 4.

Meeting adjourned at 13:30.
